

# Macomb County Board of Commissioners 2022/2023 Student Government Day Program Overview

## Purpose

To provide our community's youth the opportunity to learn the purpose and mechanics of county-level government, and be able to participate in a way to further their understanding of how local government works. Students who recognize and understand this will become more informed and involved citizens and voters.

Former President Richard Nixon wrote in his 1972 Proclamation: National Student Government Day, that student government organizations can "offer young people early and vital experience in exercising a voice in matters of common concern, reconciling diverse interests, and selecting leaders to express representative views. Equally important, active and responsible student governments can exert a constructive influence in shaping the on-going reform and self renewal of our educational communities."
