MARK A. HACKEL County Executive

MARK F. DELDIN Chief Deputy County Executive

December 1, 2024

To the Citizens and Voters of Macomb County

On behalf of myself and the Board of Commissioners. I am pleased to present the County budget for the fiscal year 2025. The budget was prepared in accordance with the County charter and state law.

We continue to use the enhanced budget format which has provided greater amounts of information and transparency to decision makers as well as the public. The document begins with a budget discussion and analysis highlighting the activity for each fund followed by a glossary that provides a description of budgeted fund names and line items. The budget summary and detail pages in this document present a three-year forecast and historical revenues and expenditures for the last three years. The narrative section of the budget includes a deeper analysis of personnel costs, and other information to further support the budget line items. It is worth noting that the County's budgeting process has passed the scrutiny of bond rating agencies as well as our independent auditors. It also exceeds the requirements and recommendations of the Department of Treasury.

I am very proud of the fact that, despite unprecedented operational challenges, we have stabilized the County's fiscal condition. Sound financial practices, a recovering economy and enhanced State funding enabled my administration to focus on protecting core programs, people and partnerships. The budget recommends resourceful compensation increases for employees to ensure that the County can remain competitive in this volatile labor market. A total of 10.0 new positions have been built into the 2025 budget. The total cost of the new positions is \$1.1 million, of which \$771,000 is funded with grants or other outside sources. The General Fund budget totals \$346.0 million, with 100% of departmental operating expenses being covered by forecasted revenues.

The County's aging infrastructure also needs to be addressed and, thus, this budget includes appropriations of \$4.6 million from the General Fund to fund the County's five year capital plan in 2025 and forecasted appropriations of 13.6 million in 2026 and \$10.0 million in 2027.

In summary, the proposed budget exceeds all of the requirements of charter and law. It is a balanced budget without a structural deficit. This is an accomplishment that I am very proud of; however, it could not have been accomplished without the support and innovative approach taken by all of the Elected Officials, County Leaders, and Employees.

As always, should you have any questions, please do not hesitate to contact me.

Sincerely,

NHAL A. FACKEL

Mark A. Hackel Macomb County Executive

About This Document

The 2024 budget has been prepared with two goals in mind. One is to present to the public a document that outlines the services provided by the County, and the resources allocated to provide those services, in a transparent and easily understandable manner. The second is to present a financial plan that the departments and elected officials can use to meet their organizational goals and objectives. As such, the budget is meant to serve as a policy document, an operations guide, a financial plan and a communication device.

Profile of the County

Macomb County was incorporated in 1818 and includes an area of 482 square miles with the county seat located in the City of Mt. Clemens. The County operates under a Home Rule Charter that provides for both executive and legislative branches of government. The executive branch is directed by an elected County Executive, who serves as the Chief Administrative Officer of the County and directs the operations of all departments except the Sheriff, Prosecuting Attorney, Public Works, County Clerk/Register of Deeds, the Circuit and District Courts and the Board of Commissioners, which are all operated by separately elected officials. The legislative branch is directed by a 13 member elected Board of Commissioners. The County provides many services to residents, including law enforcement, administration of justice, community development and enrichment, parks and recreation and human services.

Macomb is the state's third most populous county. Geographically situated in Southeast Michigan, Macomb County is a thriving suburb of the City of Detroit. While located in the Great Lakes Region, the county is within 500-miles of one-half of the United States' population and most of Southwestern Ontario. Within just 250 miles are the cities of Chicago, Cleveland and Toronto. The county is linked to these important destinations by an extensive transportation network of highway, rail and air services. Macomb's southeastern boundary lies on the western shore of Lake St. Clair. This 430-square-mile lake links lakes Huron and Erie, providing access to the St. Lawrence Seaway, which is among the world's busiest international waterways.

With approximately 34,000 acres of industrial and institutional land, Macomb County is well positioned for growth. It is significant to note that the county has sufficient sewer and water capacity in place to serve all of its largely undeveloped northern reaches. Today, new development of full-service industrial parks, manufacturing plants, office centers, Research & Development facilities, retail centers and residential construction continue to expand the county's economic base. These locational advantages, coupled with the presence of a highly skilled labor force and a strong local economy all help to establish Macomb County as a location of choice for those businesses engaged in engineering, research and development and advanced manufacturing.

Profile of the County (concluded)

Macomb County's labor force is its most valued resource. From those with college degrees and high-tech training to skilled-trades-persons, Macomb's labor force of over 400,000 is smart and productive. The county has a rich tradition of manufacturing, and continues to be a major manufacturing center. However, a shift in the economy during the 1990s produced a significant increase in service sector employment. The percentage of county jobs in the manufacturing sector decreased from 35 percent in 1980 to nearly 20 percent in 2010, with the service sector now employing approximately 45 percent. Adding definition to Macomb's robust and diverse labor force is an agricultural heritage most evident in the northern portions of the county, where second-and-third-generation farmers maximize nature's wealth.

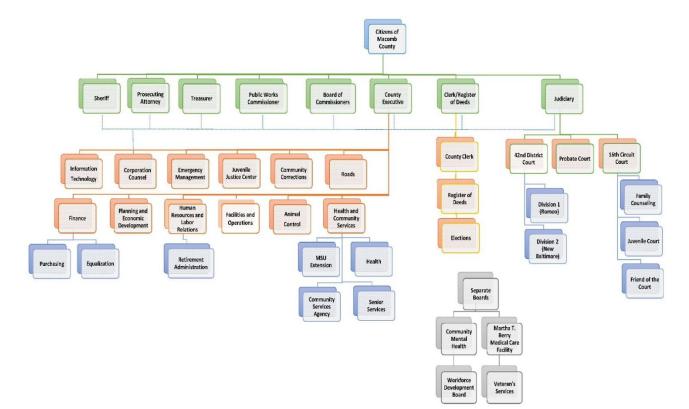

Higher education is a priority of Macomb County residents. This is directly reflected in the broad range of degree and technical certificate programs that are made available to them. Macomb Community College, with campuses in Warren and Clinton Township is the county's leading post-secondary educational institution. The nearly 48,000 students enrolled annually at the college have a choice of almost 200 options for securing degrees and certificates. The college also offers continuing education courses, career counseling, cultural activities and community services. The college also operates the 1,271-seat Macomb Center for the Performing Arts, which is one of the finest facilities of its kind in the state. The center brings a diversity of cultural arts experiences to nearly 260,000 patrons annually.

Health care services in Macomb County includes five general hospitals with a capacity of over 1,400 beds to serve the area. Henry Ford Health System operates three Henry Ford Macomb hospitals within the county, in Clinton Township, Warren and Mount Clemens. They offer several "Centers of Excellence," including the Josephine Ford Cancer Center, and the Heart and Vascular Institute, which offers highly specialized robotic cardiac surgery. Mount Clemens Regional Medical Center, a subsidiary of McLaren Health Care, offers several well-regarded specialty centers within the hospital. Prominent among them are the Mat Gaberty Heart Center and the Ted B. Wahby Cancer Center, both of which offer comprehensive diagnostic and surgical services. St. John Providence Health System has established "Centers of Excellence" for a wide range of in-patient and out-patient services at St. John Macomb-Oakland Hospital in Warren. These include Behavioral Medicine Services, Cancer Care, Cardiology Services, Emergency Center, Physical Medicine and Rehabilitation Services, Surgical Services and Women's Health Services and the state-of-the-art Webber Cancer Center.

There are 17,000 acres of land in Macomb County devoted to outdoor recreation including picnic areas, hiking trails, fishing sites, beaches, and boating facilities. Approximately thirty-miles of shoreline along Lake St. Clair provide access to fun and sports on the waters of the Great Lakes. With approximately 57,000 registered pleasure craft and over 100 public and private marinas, Macomb County hails as the state's boating capital.

Organizational Structure of the County

As mentioned previously, the County Executive is responsible for administering the budget and overseeing the day to day operations of many functions throughout the County, including the Health Department, Department of Roads, Juvenile Justice Center and support departments such as Finance and Human Resources. In addition, several functions of the County fall under the responsibility of separately elected county-wide officials. These include the Board of Commissioners, Courts, Clerk/Register of Deeds, Prosecuting Attorney, Public Works Commissioner, Sheriff and Treasurer. These are mostly statutory functions and each elected official is directly accountable to the residents of the County and is responsible for discharging their statutory functions in accordance with State laws and regulations, within the financial resources allocated to them by the Board of Commissioners. Neither the Board of Commissioners nor the County Executive has oversight responsibility over the operations of these elective offices. However, county-wide elected officials share a commitment to the commonly understood purpose of county government to provide responsive, efficient, transparent and ethical government services to the residents of Macomb County. An organizational chart of the County is presented below.

MACOMB COUNTY, MICHIGAN Organizational Chart

Fund Structure and Basis of Accounting

The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, or expenses as appropriate. Government resources are allocated to and are accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The budgeted funds of the County are classified into two broad categories: governmental and enterprise. Budgets are prepared for the following fund types:

Governmental Funds

<u>General Fund</u> – The General Fund is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in other funds.

<u>Special Revenue Funds</u> – Special revenue funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specific purposes.

<u>Debt Service Funds</u> – Debt service funds are used to account for the accumulation of resources for, and the payment of, principal, interest and related costs of general long-term debt not being accounted for in proprietary funds.

Proprietary Funds

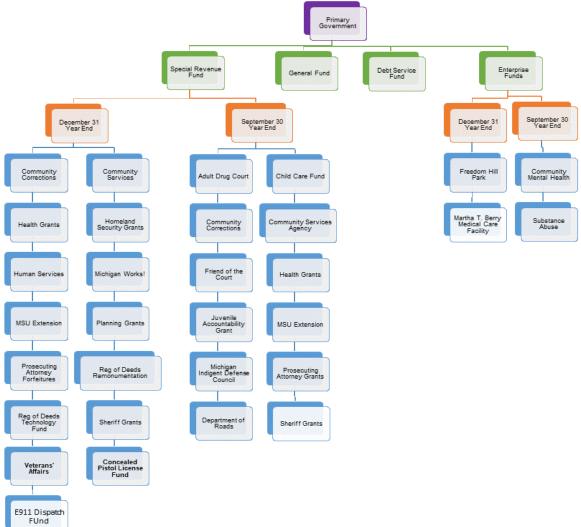

<u>Enterprise Funds</u> - Enterprise funds are used to account for the activities of the County's business-type activities. The operations of these funds are financed primarily through user fees that are intended to recover the cost of services provided.

Governmental funds are accounted for using the modified accrual basis of accounting. Revenues of governmental funds are recognized when they become both measurable and available. "Measurable" means that the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of year-end. Property taxes are recognized as revenue in the period for which they are levied. Federal grants, state distributions and grants and interest earned are recognized as revenue in the period they become both measurable and available. Licenses and permits, fines and forfeitures and other revenues are recorded when received in cash because they are generally not measurable until actually received. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, with the exception of principal and interest on general long-term debt, which is recognized when due.

Enterprise funds are accounted for using the full accrual basis of accounting, which is the same basis of accounting used in private industry. Revenues are recognized when they are earned and their expenses are recognized when they are incurred without regard to the receipt or payment of cash or its equivalent.

The Budget Process

The annual budget serves as the foundation for the County's financial planning and fiscal control for the upcoming year. The Appropriations Ordinance adopted by the Board of Commissioners represents the legal authorization for County agencies to procure goods and services. The County's budgetary practices and controls are governed by both County Charter and Public Act 2 of 1968, more commonly known as the Uniform Budgeting and Accounting Act. Each require that the budget be balanced, which means that budgeted appropriations cannot exceed the total of budgeted revenues and available fund balance reserves in any individual fund. The County Charter places responsibility for appropriating funds with the Board of Commissioners while placing responsibility for preparing and administering the budget with the County Executive. The Uniform Budgeting and Accounting Act requires local units of government in the State of Michigan to adopt annual budgets for the General Fund and Special Revenue Funds. The County Executive has also elected to prepare annual budgets for the Community Mental Health, Substance Abuse, Martha T. Berry Medical Care Facility and Freedom Hill Park Enterprise Funds since these funds were classified as Special Revenue Funds prior to the implementation of GASB Statement No. 34 in 2002, as well as the Debt Service Fund. A graphical representation of the funds for which annual budgets are prepared and submitted to the Board of Commissioners for adoption is presented below.

The Budget Process (concluded)

The majority of the funds and activities of the County are accounted for on a fiscal year that ends on December 31. The County is somewhat unique in that it also has certain Special Revenue and Enterprise funds that are accounted for on a fiscal year that ends on September 30. The County Charter requires the County Executive to submit a comprehensive balanced budget to the Board of Commissioners at least 90 days before the beginning of each fiscal year. Budget worksheets are distributed to department heads and elected officials approximately seven months before the beginning of the fiscal year and returned to the Finance Department 4-6 weeks later. The information is compiled and a recommended budget is submitted to the Board of Commissioners no later than 90 days before the beginning of the upcoming budget year. The budget is discussed further over the next 45-60 days, including formal discussions with the Finance/Audit/Budget Committee during that time. A public hearing is held approximately 2-4 weeks after budget hearings are completed and the final budget is voted on by the Board of Commissioners that same day. Appropriations approved by the Board of Commissioners are considered maximum spending authority and not a mandate to spend the entire amount appropriated. As a result, this allows for further savings to be achieved throughout the year.

Budget Amendments

The County Executive shall have authority to transfer funds as follows (i) from or to any line item within each of the budgetary centers in an amount up to \$35,000 or 5.0% of the budget in that budgetary center (department level in the General Fund and fund level for all other funds), whichever is less, and (ii) to or from any line item for internal service costs between the budgetary centers. Multiple related expenditures shall be aggregated and subject to the limitation of \$35,000 or 5.0%, whichever is less for the budget year. In addition, Budget amendments shall be required when the award amount of any Federal, State or private grant fund increases or decreases by \$35,000 or more. Budget amendments shall not be required when the award amount of any Federal, State or private grant fund increases in grant award amounts related to food and immunization programs are exempt from this clause and the County Executive shall have the authority to make such amendments as needed.

Financial Policies

Fund Balance Policy. The Administration recognizes that fund balance is critical to long-term stability and has prided itself on maintaining a healthy level of fund balance in the General Fund and is committed to doing so into the future. Therefore, the following fund balance objectives have been instituted by the Administration:

- ✓ A fund balance in the General Fund equal to at least 20% of budgeted General Fund expenditures shall be maintained in the General Fund.
- ✓ In the event that the fund balance of the General Fund falls below the 20% threshold after actual results are known for any given year, the County Executive shall be responsible for restoring it to the 20% level within the immediately following three budget cycles.

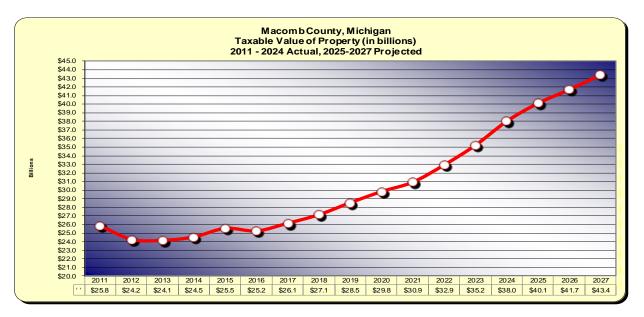

Financial Policies (concluded)

Debt Policy State law mandates that outstanding general obligation debt may not exceed 10% of the assessed valuation of property in the County. Assessed valuation is equal to 50% of market value. The County Charter requires all new debt issues to be approved by the Board of Commissioners. The Administration further strives to prudently manage its debt through the following guidelines.

- ✓ Annual debt service requirements supported by the General Fund and related to debt issued for capital purposes shall not exceed 5% of General Fund expenditures in any given year.
- \checkmark The length of new debt issues shall not exceed the useful life of the underlying capital assets.
- ✓ The length of a refinancing issue shall not exceed the remaining life of the original issue being refinanced.

Major Issues Affecting the Budget

Property Values - Property taxes are the primary source of revenue for the General Fund (49%). The County enjoyed healthy increases in taxable values of 6% per year, on average, from the mid-1990s through the mid-2000s. Taxable values began to stagnate in 2008 and declined 26.7% for the period 2008-2013 but have recovered since then. Taxable values are estimated to increase 5.5% in 2025 and 4.0% in 2026 and 2027. Each 1% change in property values equates to approximately \$1.7 million in property tax revenue to the General Fund. Every governmental unit in the State is challenged by a State law known as Proposal A, which was enacted in 1994 and places limits on the annual increase in taxable value. Prior to Proposal A, property was taxed on its State Equalized Value (SEV), which represents approximately 50% of market value. Proposal A created a new value called Taxable Value, which was set at the same amount as SEV at its inception. Under Proposal A, SEV increases at market rates while the growth in taxable value is limited to 5% or the rate of inflation, whichever is less. As a result, property tax revenues recover very slowly after periods of rapid loss.

Major Issues Affecting the Budget (continued)

<u>Fringe Benefits</u> – The County offers its employees a generous package of fringe benefits, including health care and dental coverage when employed, health care in retirement and a defined benefit pension plan. The County has enacted several changes to its benefit structure in the past several years to address increasing costs, including

- Increasing the vesting period for retiree health care from 8 to 15 years for employees hired on or after January 1, 2006
- > Moved Medicare eligible retirees from a self-insured plan to a premium based product in 2010
- > Eliminated retiree health care for spouses of employees hired on or after January 1, 2012.
- Vesting period for pension benefits increased from 8 years to 15 years for employees hired on or after January 1, 2012.
- Retiree health care plan designs will be the same as those of employees for employees hired on or after January 1, 2012 and current employees that retire after November 1, 2013.
- > Effective January 1, 2016, new hires will no longer be eligible for retiree health care.
- > Effective January 1, 2016, new hires will be eligible to participate in a defined contribution pension plan.

Until 2015, the County had not pre-funded its annual required contribution to the General County Retiree Health Care plan since 2003. The closure of the plan to new hires effective January 1, 2016 resulted in a reduction in the unfunded liability from \$549 million to approximately \$263 million. The County issued bonds in March 2015 to fully fund the liability. The General Fund and Delinquent Tax Revolving Fund also made one-time contributions of \$29 million and \$30 million, respectively, to prefund future normal costs.

<u>Capital Improvements</u> - Aging infrastructure continues to be a major concern of the Administration. The County's 5 year capital plan calls for \$57.5 million in projects for the period 2025-2029, with \$13.9 million in projects scheduled for 2025, of which the General Fund is expected to fund \$8.3 million.

The County received approximately \$169.8 million in American Rescue Plan funding from the Federal government over the course of fiscal years 2021 and 2022. Approximately \$129.8 million of these funds will be spent on transformative projects to enhance service delivery in the areas of mental health, substance abuse and human services, while \$40.0 million has been allocated toward water and sewer infrastructure projects.

Personnel Changes

A total of 21.2 new full-time equivalents have been incorporated into the 2025 budget, all of which are wholly or partially funded by grants or other external funding sources.

The General Fund

The General Fund is the primary operating fund of the County. It is responsible for funding virtually all law enforcement and justice functions, including the Courts, Juvenile Justice, Sheriff, Prosecuting Attorney and support services such as Finance and Human Resources. The General Fund is also responsible for funding the majority of the operations of the County's other elected officials, including the County Executive, Clerk/Register of Deeds, Treasurer, Board of Commissioners and the Public Works Commissioner. As a result, it is the focal point of the budget. The 2025 General Fund expenditure budget as adopted totals \$345.9 million, an increase of 7.5% from the 2024 adopted budget. The increase from 2024 to 2025 is primarily the result of salary increases and related benefits and investments in capital projects. Revenues of \$346.1 million represent a 7.4% increase over fiscal 2024, driven primarily by increases in property values, interest income and State shared revenues. A summary of revenues by source and expenditures by function and category for fiscal 2024, 2025, 2026 and 2027 is presented below:

The General Fund (concluded)

Fund Balance - Preservation of fund balance is critical for the future. The County has prided itself on maintaining a healthy level of fund balance in its various operating funds. Industry guidelines recommend a fund balance of approximately 10 - 15% of annual expenditures in any given fund. The unaudited fund balance of the General Fund, net of prepaid expenses and long-term receivables, was \$116.9 million as of December 31, 2023 and represented 43.3% of expenditures, including transfers out. The ratio is budgeted to maintain healthy levels for the next several years, as presented below.

Debt Service Fund (continued)

Debt Service Fund (concluded)

State statute limits the total amount of general obligation debt of the County to 10% of the assessed value of all property in the County. Assessed value is generally 50% of true market value. Management, however, believes that the taxable value of all property in the County is a more practical and conservative base on which to base the calculation of the County's debt limit. The taxable value of all property in the County as of December 31, 2024 is \$38.0 billion. Therefore, the County's debt limitation was \$3.8 billion at year-end. The County's outstanding debt of \$193.8 million at December 31, 2024, supported by the General Fund, will be well below the limit based on either assessed or taxable value.

Pension and Retiree Health Care Liabilities

Defined Benefit Pension Plan - The County sponsors and administers the Macomb County Employees' Retirement System (the "System"), a single employer defined benefit plan covering substantially all of the County's employees. The System was established in accordance with state statutes to provide retirement benefits for the employees of the County and its several offices, boards and departments. The following is a summary of the benefits provided to the members of the system.

<u>General County-</u> Virtually all employees hired on or before December 31, 2001 may retire if their age plus years of service equals or exceeds 70 and they have attained a minimum age of 50. The annual retirement benefit, payable monthly for life, is computed at 2.4% of final average compensation for the first 26 years of service and 1% for every year thereafter, with a maximum employer pension of 65%. Employees hired on or after January 1, 2002 and certain employees hired before that date not covered by the provisions described above may retire at age 55 with 25 or more years of service or age 60 with 8 years of service. The annual retirement benefit, payable monthly for life, for these employees is computed at 2.2% of final average compensation for each year of service, with a maximum employer pension of 66%. The plan is closed to new employees effective January 1, 2016.

<u>Sheriff Department-</u> Employees may retire at any age with 25 or more years of service or age 60 with 8 years of service. The annual retirement benefit for the Sheriff, command officers, deputies and dispatchers, payable monthly for life, is computed at 2.64% of final average compensation multiplied by credited years of service with a maximum employer pension of 66%. The factor for the undersheriff, captains, jail administrator and corrections officers is 2.4% for the first 26 years of service and 1% for every year thereafter, with a maximum employer pension of 66%. The plan is closed to new employees effective January 1, 2016.

<u>Department of Roads-</u> Depending upon union affiliation and date of hire, employees may retire if (a) their age plus years of service equals or exceeds 70 and they have attained a minimum age of 55; (b) age 55 with 25 years of service; (c) age 60 with either 8 or 15 years of service; (d) age 65 with 8 or 15 years of service. The annual retirement benefit, payable monthly for life, is computed at either 2.4% of final average compensation for the first 26 years of service and 1% for every year thereafter, with a maximum employer pension of 65% or 2.2% of final average compensation for each year of service, with a maximum employer pension of 65%. The plan is closed to new employees effective January 1, 2016. As of December 31, 2023, the date of the most recent actuarial valuation, the plan was 101.8% funded.

Description of Funds

The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. There are three major categories of funds: Governmental, Proprietary, and Fiduciary with each category consisting of one or more types of funds. Governmental Funds are used to account for functions that finance most of governmental operations and activities. The General Fund, Special Revenue Funds, and Debt Service Funds are considered Governmental Funds. Propriety Funds are used to account for activities similar to those found in the private sector where the intent of the governing body is to finance the full cost of providing services, including depreciation, primarily through user charges. Fiduciary Funds are used to account for assets held in trust or as an agent for others and, are, therefore, not budgeted.

Generally accepted accounting principles require governmental funds to be accounted for on the modified accrual basis of accounting, which means that revenues are recognized when they become both measurable and available and expenditures are recognized when the related fund liability is incurred, with the exception of principal and interest on general long-term debt, which is recognized on the cash basis when due. The budgets for governmental funds are, likewise, prepared on the modified accrual basis of accounting. "Measurable" means that the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of year-end. Proprietary funds are accounted for using the full accrual basis of accounting, which recognizes revenues when they are earned and expenses when they are incurred regardless of the timing of the associated receipts and payments. The budgets for proprietary are, likewise, prepared on the full accrual basis of accounting.
