MARK A. HACKEL COUNTY EXECUTIVE

MARK F. DELDIN
CHIEF DEPUTY COUNTY EXECUTIVE

October 3, 2025

Chairman Joe Sabatini and Macomb County Board of Commissioners One S. Main, 9th Floor Mt. Clemens, MI. 48043

Re: Macomb County Budget for Fiscal Years Ending September 30 and December 31, 2026

As County Executive, the Charter requires me to prepare and administer a comprehensive, balanced budget in a manner that assures coordination among agencies. Section 8.6.1 of the Charter requires that the budget be transmitted at least 90 days before the next fiscal year begins and specifies the minimum content for the budget document. Since the County's fiscal year begins on January 1, the budget is being transmitted in accordance with the deadlines set by the Charter.

We continue to use the enhanced budget format, which has provided greater amounts of information and transparency to decision makers as well as the public. The document begins with a budget discussion and analysis, highlighting the activity for each fund, followed by a glossary that provides descriptions of budgeted fund names and line items. The budget summary and detail pages in this document present a three-year forecast, along with historical revenues and expenditures for the last three years. The narrative section of the budget provides a more detailed analysis of personnel costs and other relevant information to further support the budget line items. It is worth noting that the County's budgeting process has passed the scrutiny of bond rating agencies as well as our independent auditors. It also exceeds the requirements and recommendations of the Department of Treasury.

I am proud of our financial condition. Sound financial practices, a recovering economy and enhanced State funding enabled my administration to focus on protecting core programs, people and partnerships. The budget reflects lean operational practices while ensuring that services with the most significant impact on residents and businesses remain prioritized. It also includes resourceful compensation increases for employees to ensure the County remains competitive in this volatile labor market. A total of 3.34 positions have been removed from the recommended 2026 budget, through a combination of adding positions where needed and eliminating vacant positions where appropriate. The net cost of the position changes is \$2.6 million, of which \$0.6 million is funded with grants or other outside sources. The General Fund budget totals \$367.5 million, with 100% of departmental operating expenses being covered by forecasted revenues.

The County's aging infrastructure also needs to be addressed; therefore, this budget includes appropriations of \$12.2 million from the General Fund to fund the County's five-year capital plan in 2026, as well as forecasted appropriations of \$11.5 million in 2027 and \$11.5 million in 2028.

In summary, the proposed budget exceeds all of the requirements of the charter and law. It is a balanced budget without a structural deficit. This is an accomplishment that I am very proud of; however, it could not have been accomplished without the support and innovative approach taken by all of the Elected Officials, County Leaders, and Employees.

As always, if you have any questions, please don't hesitate to contact me.

Sincerely,

Mark A. Hackel

Macomb County Executive

About This Document

The 2026 budget has been prepared with two goals in mind. One is to present to the public a document that outlines the services provided by the County, and the resources allocated to provide those services, in a transparent and easily understandable manner. The second is to present a financial plan that the departments and elected officials can use to meet their organizational goals and objectives. As such, the budget is meant to serve as a policy document, an operations guide, a financial plan and a communication device.

Profile of the County

Established in 1818, Macomb County encompasses nearly 484 square miles, with the City of Mount Clemens serving as the county seat. The County operates under a Home Rule Charter that defines separate executive and legislative branches of government.

The County Executive, elected by voters, serves as the Chief Administrative Officer and oversees the day-to-day operations of most departments. Independently elected officials lead the offices of the Sheriff, Prosecuting Attorney, Public Works Commissioner, County Clerk/Register of Deeds, and the Judicial Branch. Legislative authority rests with a 13-member elected Board of Commissioners.

Macomb County delivers a broad range of public services, including law enforcement, judicial administration, health and human services, infrastructure, parks and recreation, and community development.

Macomb County is the third most populous county in Michigan and a major suburban anchor of Metro Detroit. Located in Southeast Michigan, it lies within 500 miles of half the U.S. population and most of Southwestern Ontario. Cities such as Chicago, Toronto, and Cleveland are all within a half-day's drive.

The county benefits from a robust transportation network, including major interstates, freight rail, and proximity to Detroit Metropolitan Airport. Macomb's southeastern edge borders Lake St. Clair, providing access to the Great Lakes and the St. Lawrence Seaway, one of the world's busiest international waterways.

Macomb County is home to more than 886,000 residents, supported by a labor force exceeding 450,000 people. The county's workforce is a blend of highly educated professionals, skilled tradespeople, and technical specialists, making it a prime location for businesses in advanced manufacturing, defense, automotive, and technology sectors.

A long-standing manufacturing base continues to thrive, while service industries, logistics, and research and development have seen significant growth. The northern part of the county retains a strong agricultural presence, with multi-generational farms contributing to both local culture and the economy.

Macomb County remains a hub for industrial innovation and economic growth, boasting a well-developed infrastructure system that supports expansion across all sectors. With significant tracts of land available, particularly in the northern region, the county offers excellent opportunities for the development of full-service industrial parks, advanced manufacturing and R&D facilities, office campuses, technology hubs, and commercial and residential development. Access to skilled labor, a strong economic foundation, and a strategic location make Macomb a preferred destination for investment and expansion.

Profile of the County (concluded)

Macomb Community College, with its main campuses in Warren and Clinton Township, is a regional leader in post-secondary education. The college offers a wide range of degree and certificate programs, as well as continuing education, workforce development, and career counseling services. Macomb County provides more opportunities to complete coursework through Michigan's 15 public colleges than any other area in the state. For example, Macomb Community College hosts a University Center that connects students to six partner universities, offering over 60 bachelor's and master's degree programs. Beyond the University Center, the college's two main campuses serve approximately 50,000 students annually and provide more than 200 options for earning degrees and certificates.

The college is also home to the Macomb Center for the Performing Arts. This 1,271-seat venue presents music, dance, and theatrical programming to more than 250,000 guests annually, enriching the region's cultural landscape.

Macomb County is home to approximately 1,100 hospital beds across four major health systems providing specialized care. Henry Ford Macomb Hospital in Clinton Township recently completed a \$318 million expansion, adding 160 private rooms and advanced ICU capabilities. It features the Josephine Ford Cancer Institute and the Heart & Vascular Institute, including robotic cardiac surgery. McLaren Macomb in Mount Clemens offers comprehensive services at the Mat Gaberty Heart Center and Ted B. Wahby Cancer Center, and recently opened a 62,000-square-foot outpatient surgery center for same-day procedures. Ascension Michigan operates Macomb-Oakland Hospital in Warren and a health center in Chesterfield Township, offering primary, emergency, specialty, behavioral health, cancer, and women's health services. Corewell Health East (formerly Beaumont) runs a modern outpatient campus in Lenox Township, providing emergency care, diagnostic imaging, cancer services, and pharmacy support.

Each system delivers specialized care in oncology, cardiology, orthopedics, emergency, behavioral health, and women's health, ensuring local access to world-class treatment. A skilled healthcare workforce supports the county's growing network, with programs such as the MSU College of Osteopathic Medicine partnership at Macomb Community College, which trains future physicians. With an aging population and rising demand, workforce retention is a priority as the World Economic Forum projects a global shortfall of 10 million healthcare workers by 2030.

Macomb County offers a high quality of life through a wide array of outdoor recreation, parks, and waterfront amenities. Highlights include: 32 miles of shoreline along Lake St. Clair, over 180 miles of connected trail systems for walking, biking, and outdoor fitness, 70 public and private marinas supporting an active boating lifestyle, 3,800 acres of municipal parkland with beaches, picnic areas, and sports facilities.

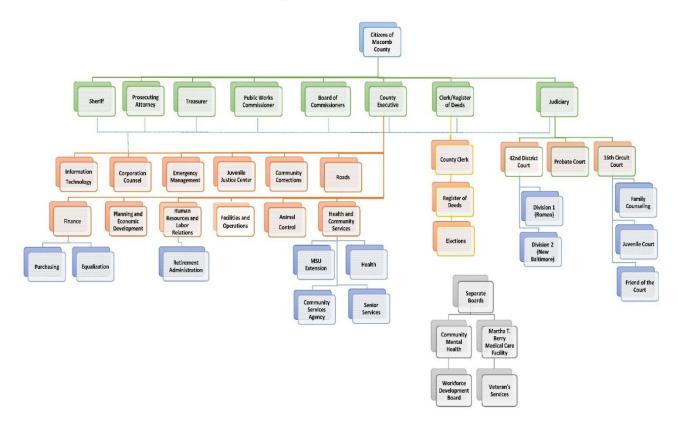

Known as Michigan's Boating Capital, Macomb County is a premier destination for fishing, sailing, and water sports, offering residents and visitors unparalleled access to the Great Lakes.

With a strategic location, ready infrastructure, educated and skilled labor force, and commitment to innovation, Macomb County continues to lead as a dynamic hub for living, working, and investing in Michigan.

Organizational Structure of the County

As mentioned previously, the County Executive is responsible for administering the budget and overseeing the day to day operations of many functions throughout the County, including the Health Department, Department of Roads, Juvenile Justice Center and support departments such as Finance and Human Resources. In addition, several functions of the County fall under the responsibility of separately elected county-wide officials. These include the Board of Commissioners, Courts, Clerk/Register of Deeds, Prosecuting Attorney, Public Works Commissioner, Sheriff and Treasurer. These are mostly statutory functions and each elected official is directly accountable to the residents of the County and is responsible for discharging their statutory functions in accordance with State laws and regulations, within the financial resources allocated to them by the Board of Commissioners. Neither the Board of Commissioners nor the County Executive has oversight responsibility over the operations of these elective offices. However, county-wide elected officials share a commitment to the commonly understood purpose of county government to provide responsive, efficient, transparent and ethical government services to the residents of Macomb County. An organizational chart of the County is presented below.

MACOMB COUNTY, MICHIGAN Organizational Chart

Fund Structure and Basis of Accounting

The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, or expenses as appropriate. Government resources are allocated to and are accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The budgeted funds of the County are classified into two broad categories: governmental and enterprise. Budgets are prepared for the following fund types:

Governmental Funds

<u>General Fund</u> – The General Fund is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in other funds.

<u>Special Revenue Funds</u> – Special revenue funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specific purposes.

<u>Debt Service Funds</u> – Debt service funds are used to account for the accumulation of resources for, and the payment of, principal, interest and related costs of general long-term debt not being accounted for in proprietary funds.

Proprietary Funds

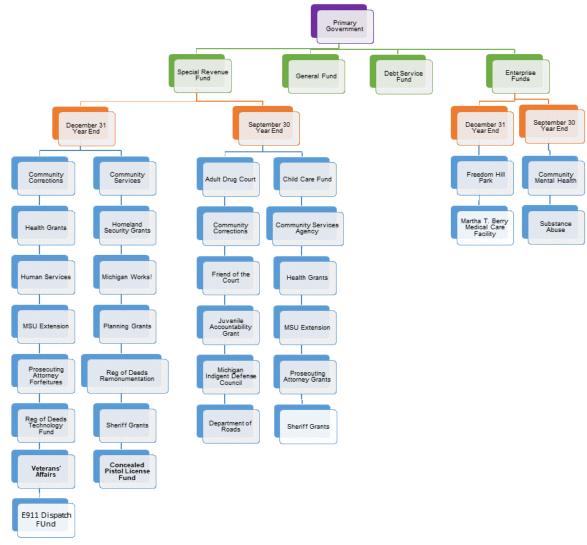

<u>Enterprise Funds</u> - Enterprise funds are used to account for the activities of the County's business-type activities. The operations of these funds are financed primarily through user fees that are intended to recover the cost of services provided.

Governmental funds are accounted for using the modified accrual basis of accounting. Revenues of governmental funds are recognized when they become both measurable and available. "Measurable" means that the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of year-end. Property taxes are recognized as revenue in the period for which they are levied. Federal grants, state distributions and grants and interest earned are recognized as revenue in the period they become both measurable and available. Licenses and permits, fines and forfeitures and other revenues are recorded when received in cash because they are generally not measurable until actually received. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, with the exception of principal and interest on general long-term debt, which is recognized when due.

Enterprise funds are accounted for using the full accrual basis of accounting, which is the same basis of accounting used in private industry. Revenues are recognized when they are earned and their expenses are recognized when they are incurred without regard to the receipt or payment of cash or its equivalent.

The Budget Process

The annual budget serves as the foundation for the County's financial planning and fiscal control for the upcoming year. The Appropriations Ordinance adopted by the Board of Commissioners represents the legal authorization for County agencies to procure goods and services. The County's budgetary practices and controls are governed by both County Charter and Public Act 2 of 1968, more commonly known as the Uniform Budgeting and Accounting Act. Each require that the budget be balanced, which means that budgeted appropriations cannot exceed the total of budgeted revenues and available fund balance reserves in any individual fund. The County Charter places responsibility for appropriating funds with the Board of Commissioners while placing responsibility for preparing and administering the budget with the County Executive. The Uniform Budgeting and Accounting Act requires local units of government in the State of Michigan to adopt annual budgets for the General Fund and Special Revenue Funds. The County Executive has also elected to prepare annual budgets for the Community Mental Health, Substance Abuse, Martha T. Berry Medical Care Facility and Freedom Hill Park Enterprise Funds since these funds were classified as Special Revenue Funds prior to the implementation of GASB Statement No. 34 in 2002, as well as the Debt Service Fund. A graphical representation of the funds for which annual budgets are prepared and submitted to the Board of Commissioners for adoption is presented below.

The Budget Process (concluded)

The majority of the funds and activities of the County are accounted for on a fiscal year that ends on December 31. The County is somewhat unique in that it also has certain Special Revenue and Enterprise funds that are accounted for on a fiscal year that ends on September 30. The County Charter requires the County Executive to submit a comprehensive balanced budget to the Board of Commissioners at least 90 days before the beginning of each fiscal year. Budget worksheets are distributed to department heads and elected officials approximately seven months before the beginning of the fiscal year and returned to the Finance Department 4-6 weeks later. The information is compiled and a recommended budget is submitted to the Board of Commissioners no later than 90 days before the beginning of the upcoming budget year. The budget is discussed further over the next 45-60 days, including formal discussions with the Finance/Audit/Budget Committee during that time. A public hearing is held approximately 2-4 weeks after budget hearings are completed and the final budget is voted on by the Board of Commissioners that same day. Appropriations approved by the Board of Commissioners are considered maximum spending authority and not a mandate to spend the entire amount appropriated. As a result, this allows for further savings to be achieved throughout the year.

Budget Amendments

The County Executive shall have authority to transfer funds as follows (i) from or to any line item within each of the budgetary centers in an amount up to \$35,000 or 5.0% of the budget in that budgetary center (department level in the General Fund and fund level for all other funds), whichever is less, and (ii) to or from any line item for internal service costs between the budgetary centers. Multiple related expenditures shall be aggregated and subject to the limitation of \$35,000 or 5.0%, whichever is less for the budget year. In addition, Budget amendments shall be required when the award amount of any Federal, State or private grant fund increases or decreases by \$35,000 or more. Budget amendments shall not be required when the award amount of any Federal, State or private grant increases or decreases by less than \$35,000. Budget amendments necessitated by changes in grant award amounts related to food and immunization programs are exempt from this clause and the County Executive shall have the authority to make such amendments as needed.

Financial Policies

<u>Fund Balance Policy</u> The Administration recognizes that fund balance is critical to long-term stability and has prided itself on maintaining a healthy level of fund balance in the General Fund and is committed to doing so into the future. Therefore, the following fund balance objectives have been instituted by the Administration:

- ✓ A fund balance in the General Fund equal to at least 20% of budgeted General Fund expenditures shall be maintained in the General Fund.
- ✓ In the event that the fund balance of the General Fund falls below the 20% threshold after actual results are known for any given year, the County Executive shall be responsible for restoring it to the 20% level within the immediately following three budget cycles.

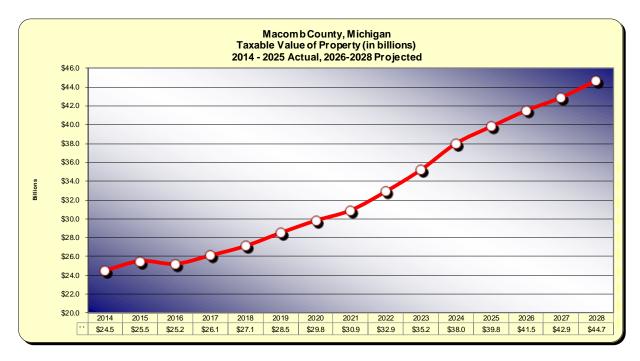

Financial Policies (concluded)

<u>Debt Policy</u> State law mandates that outstanding general obligation debt may not exceed 10% of the assessed valuation of property in the County. Assessed valuation is equal to 50% of market value. The County Charter requires all new debt issues to be approved by the Board of Commissioners. The Administration further strives to prudently manage its debt through the following guidelines.

- ✓ Annual debt service requirements supported by the General Fund and related to debt issued for capital purposes shall not exceed 5% of General Fund expenditures in any given year.
- ✓ The length of new debt issues shall not exceed the useful life of the underlying capital assets.
- ✓ The length of a refinancing issue shall not exceed the remaining life of the original issue being refinanced.

Major Issues Affecting the Budget

Property Values - Property taxes are the primary source of revenue for the General Fund (xx%). The County enjoyed healthy increases in taxable values of 6% per year, on average, from the mid-1990s through the mid-2000s. Taxable values began to stagnate in 2008 and declined 26.7% for the period 2008-2013 but have recovered since then. Taxable values are estimated to increase 3.5% in 2026 and 2027 and 3.0% in 2028. Each 1% change in property values equates to approximately \$1.7 million in property tax revenue to the General Fund. Every governmental unit in the State is challenged by a State law known as Proposal A, which was enacted in 1994 and places limits on the annual increase in taxable value. Prior to Proposal A, property was taxed on its State Equalized Value (SEV), which represents approximately 50% of market value. Proposal A created a new value called Taxable Value, which was set at the same amount as SEV at its inception. Under Proposal A, SEV increases at market rates while the growth in taxable value is limited to 5% or the rate of inflation, whichever is less. As a result, property tax revenues recover very slowly after periods of rapid loss.

Major Issues Affecting the Budget (continued)

<u>Fringe Benefits</u> – The County offers its employees a generous package of fringe benefits, including health care and dental coverage when employed, health care in retirement and a defined benefit pension plan. The County has enacted several changes to its benefit structure in the past several years to address increasing costs, including

- Increasing the vesting period for retiree health care from 8 to 15 years for employees hired on or after January 1, 2006
- Moved Medicare eligible retirees from a self-insured plan to a premium based product in 2010
- > Eliminated retiree health care for spouses of employees hired on or after January 1, 2012.
- Vesting period for pension benefits increased from 8 years to 15 years for employees hired on or after January 1, 2012.
- Retiree health care plan designs will be the same as those of employees for employees hired on or after January 1, 2012 and current employees that retire after November 1, 2013.
- Effective January 1, 2016, new hires will no longer be eligible for retiree health care.
- > Effective January 1, 2016, new hires will be eligible to participate in a defined contribution pension plan.

Until 2015, the County had not pre-funded its annual required contribution to the General County Retiree Health Care plan since 2003. The closure of the plan to new hires effective January 1, 2016 resulted in a reduction in the unfunded liability from \$549 million to approximately \$263 million. The County issued bonds in March 2015 to fully fund the liability. The General Fund and Delinquent Tax Revolving Fund also made one-time contributions of \$29 million and \$30 million, respectively, to prefund future normal costs.

<u>Capital Improvements</u> - Aging infrastructure continues to be a major concern of the Administration. The County's five-year capital plan calls for \$430.7 million in projects for the period 2026-2030, with \$294.3 million in projects scheduled for 2026.

The County received approximately \$169.8 million in American Rescue Plan funding from the Federal government over the course of fiscal years 2021 and 2022. Approximately \$129.8 million of these funds will be spent on transformative projects to enhance service delivery in the areas of mental health, substance abuse and human services, while \$40.0 million has been allocated toward water and sewer infrastructure projects.

The General Fund

The General Fund is the primary operating fund of the County. It is responsible for funding virtually all law enforcement and justice functions, including the Courts, Juvenile Justice, Sheriff, Prosecuting Attorney and support services such as Finance and Human Resources. The General Fund is also responsible for funding the majority of the operations of the County's other elected officials, including the County Executive, Clerk/Register of Deeds, Treasurer, Board of Commissioners and the Public Works Commissioner. As a result, it is the focal point of the budget. The 2026 General Fund expenditure budget as recommended totals \$367.5 million, an increase of 3.5% from the 2025 amended budget. The increase from 2025 to 2026 is primarily the result of salary increases and related benefits and investments in capital projects. Revenues of \$367.5 million represent a 5.8% increase over fiscal 2025 amended, driven primarily by increases in property values and State shared revenues. A summary of revenues by source and expenditures by function and category for fiscal 2025, 2026, 2027 and 2028 is presented below:

The General Fund (concluded)

<u>Fund Balance -</u> Preservation of fund balance is critical for the future. The County has prided itself on maintaining a healthy level of fund balance in its various operating funds. Industry guidelines recommend a fund balance of approximately 10 - 15% of annual expenditures in any given fund. The unaudited fund balance of the General Fund, net of prepaid expenses and long-term receivables, is anticipated to be \$125.1 million as of December 31, 2024 and represented 41.2% of expenditures, including transfers out. The ratio is budgeted to maintain healthy levels for the next several years, as presented below.

Special Revenue Funds

The purpose of this grant program is to survey and verify the location of corner markers, or "monuments", of all township sections within the County with satellite technology to assure accurate property boundaries, road alignments, subdivision layouts and plat descriptions. The grant funds are administered by the Register of Deeds and used to acquire technology and professional surveyor services to verify the position of each corner marker, which represents one square mile; there are thirty-six sections in each township. Debt Service Fund (continued)

Debt Service Fund (concluded)

State statute limits the total amount of general obligation debt of the County to 10% of the assessed value of all property in the County. Assessed value is generally 50% of true market value. Management, however, believes that the taxable value of all property in the County is a more practical and conservative base on which to base the calculation of the County's debt limit. The taxable value of all property in the County as of December 31, 2025 is \$39.8 billion. Therefore, the County's debt limitation was \$3.9 billion at year-end. The County's outstanding debt of \$176.9 million at December 31, 2025, supported by the General Fund, will be well below the limit based on either assessed or taxable value.

Pension and Retiree Health Care Liabilities

<u>Defined Benefit Pension Plan</u> - The County sponsors and administers the Macomb County Employees' Retirement System (the "System"), a single employer defined benefit plan covering substantially all of the County's employees. The System was established in accordance with state statutes to provide retirement benefits for the employees of the County and its several offices, boards and departments. The following is a summary of the benefits provided to the members of the system.

<u>General County-</u> Virtually all employees hired on or before December 31, 2001 may retire if their age plus years of service equals or exceeds 70 and they have attained a minimum age of 50. The annual retirement benefit, payable monthly for life, is computed at 2.4% of final average compensation for the first 26 years of service and 1% for every year thereafter, with a maximum employer pension of 65%. Employees hired on or after January 1, 2002 and certain employees hired before that date not covered by the provisions described above may retire at age 55 with 25 or more years of service or age 60 with 8 years of service. The annual retirement benefit, payable monthly for life, for these employees is computed at 2.2% of final average compensation for each year of service, with a maximum employer pension of 66%. The plan is closed to new employees effective January 1, 2016.

<u>Sheriff Department-</u> Employees may retire at any age with 25 or more years of service or age 60 with 8 years of service. The annual retirement benefit for the Sheriff, command officers, deputies and dispatchers, payable monthly for life, is computed at 2.64% of final average compensation multiplied by credited years of service with a maximum employer pension of 66%. The factor for the undersheriff, captains, jail administrator and corrections officers is 2.4% for the first 26 years of service and 1% for every year thereafter, with a maximum employer pension of 66%. The plan was re-opened to this group in 2025.

<u>Department of Roads-</u> Depending upon union affiliation and date of hire, employees may retire if (a) their age plus years of service equals or exceeds 70 and they have attained a minimum age of 55; (b) age 55 with 25 years of service; (c) age 60 with either 8 or 15 years of service; (d) age 65 with 8 or 15 years of service. The annual retirement benefit, payable monthly for life, is computed at either 2.4% of final average compensation for the first 26 years of service and 1% for every year thereafter, with a maximum employer pension of 65% or 2.2% of final average compensation for each year of service, with a maximum employer pension of 65%. The plan is closed to new employees effective January 1, 2016. As of December 31, 2023, the date of the most recent actuarial valuation, the plan was 101.5% funded.

MACOMB COUNTY, MICHIGAN Glossary of Terms

Description of Funds

The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. There are three major categories of funds: Governmental, Proprietary, and Fiduciary with each category consisting of one or more types of funds. Governmental Funds are used to account for functions that finance most of governmental operations and activities. The General Fund, Special Revenue Funds, and Debt Service Funds are considered Governmental Funds. Propriety Funds are used to account for activities similar to those found in the private sector where the intent of the governing body is to finance the full cost of providing services, including depreciation, primarily through user charges. Fiduciary Funds are used to account for assets held in trust or as an agent for others and, are, therefore, not budgeted.

Generally accepted accounting principles require governmental funds to be accounted for on the modified accrual basis of accounting, which means that revenues are recognized when they become both measurable and available and expenditures are recognized when the related fund liability is incurred, with the exception of principal and interest on general long-term debt, which is recognized on the cash basis when due. The budgets for governmental funds are, likewise, prepared on the modified accrual basis of accounting. "Measurable" means that the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of year-end. Proprietary funds are accounted for using the full accrual basis of accounting, which recognizes revenues when they are earned and expenses when they are incurred regardless of the timing of the associated receipts and payments. The budgets for proprietary are, likewise, prepared on the full accrual basis of accounting.
